

Giving Wings to Fly

Candidate Guide: Psychometric and Aptitude Assessment

Everything you need to know before your online assessment

Dear Candidate,

Congratulations on reaching the next stage of the Giving Wings to Fly programme! This guide explains what to expect during the stage- Psychometric and Aptitude Assessment, the technical requirements you will need, and important dates to block on your calendar. Please read this document carefully and reach out to the programme helpdesk if you have any questions.

All the Best.

1. About the Assessment Stage

As part of the selection process, you are required to complete an online assessment that has two parts. Both parts are completed in a single sitting, on a secure and proctored online assessment platform, from any location where you have access to a computer and a stable internet connection.

- **Part 1 – Aptitude & Psychometric Assessment:** A computer-based, multiple-choice (MCQ) assessment covering areas relevant to a career in commercial aviation. Each question presents a set of options, from which you select the single answer.
- **Part 2 – Video Statement of Purpose (SOP):** A short, recorded video in which you give timed responses to on-screen prompts, in **English**.

Total duration of the assessment: Part 1 and Part 2 together take 115 minutes to be completed in a single sitting once your assessment link is issued and shared on the scheduled date of assessment. Each section is timed, and no extension of time is provided for the overall assessment.

Component	Total Time
Part 1 – Aptitude & Psychometric Assessment (MCQ)	105 minutes
Part 2 – Video Statement of Purpose (SOP)	10 minutes
Duration of Assessment	115 minutes

2. Part 1 Syllabus – Section-wise Overview

Part 1 is entirely in Multiple Choice Question (MCQ) format

Section	Questions	Time In mins	What it covers
A – Cognitive and Aptitude	35	35	Numerical reasoning, spatial and mechanical aptitude, logical reasoning, and an attention-to-detail (speed) exercise.
B- Attention to Detail (Speed Test)	25	10	
B – Psychometric and Behavioural	20	20	Situational judgment questions covering career motivation, stress tolerance and emotional stability, learning agility, and decision-making.
C – Foundational Readiness	45	40	English language proficiency (reading comprehension, grammar, vocabulary), Class 12-level Physics and Mathematics, and basic computer/digital skills.
Total (Part 1)	125	105	Total time

Disclaimer: The topics listed are intended to help candidates prepare for the assessment. The actual examination may include questions beyond the examples provided, provided they are relevant to the competencies being assessed.

3. Section -A Cognitive & Aptitude Assessment

What is Cognitive & Aptitude Assessment?

This section assesses your thinking ability, problem-solving skills, analytical reasoning, and decision-making ability. It is designed to evaluate how effectively you analyse information, recognise patterns, solve problems, and make logical decisions under time constraints. These are essential skills for a future commercial pilot.

1. Numerical Reasoning: Tests your ability to work with numbers and mathematical concepts.

- Percentages, ratios and proportions
- Averages and basic arithmetic
- Speed, time & distance
- Data interpretation (tables and graphs)
- Basic calculations and numerical accuracy

2. Spatial & Mechanical Aptitude: Assesses your ability to visualise objects, understand spatial relationships, and apply basic mechanical concepts.

- Shapes and patterns
- Mental rotation of objects
- Direction and orientation

- Basic mechanical principles
- Visual problem-solving

3. Logical Reasoning: Evaluates your ability to analyse information and arrive at logical conclusions.

- Pattern recognition
- Sequences and series
- Analytical thinking
- Logical relationships
- Problem-solving scenarios

4. Section B: Attention to Detail (Speed Test)

Measures how quickly and accurately you can identify information.

- Comparing letters, numbers and symbols
- Identifying similarities and differences
- Spotting errors quickly
- Maintaining accuracy while working under time pressure

5. Section -C Psychometric & Behavioural Assessment

What is a Psychometric & Behavioural Assessment?

This section is designed to understand how you think, respond, and make decisions in different situations. It assesses your behavioural traits, professional attitude, and readiness for a career in aviation. Unlike academic or aptitude tests, this section does not assess your subject knowledge. Instead, it focuses on your personality, judgement, and approach to real-life situations.

The assessment is expected to covers four key areas:

1. Career Motivation

Evaluates your interest and commitment towards becoming a commercial pilot.

You will be assessed on:

- Your career goals
- Interest in the aviation industry
- Commitment to learning and growth
- Long-term career aspirations

2. Stress Tolerance & Emotional Stability

Assess how well you remain calm and composed during challenging situations.

You will be assessed on:

- Managing pressure
- Staying positive during setbacks
- Emotional resilience
- Professional behaviour under stress

3. Learning Agility

Measures your willingness and ability to learn new skills and adapt to changing situations.

- Openness to learning
- Adaptability
- Curiosity and continuous improvement
- Ability to accept feedback

4. Decision-Making & Judgement

Evaluates how you analyse situations and make responsible decisions.

- Problem-solving
- Ethical decision-making
- Prioritising tasks
- Choosing the most appropriate response

Preparation Tips

- Read every situation carefully before selecting your answer.
- Choose the response that best reflects your natural behaviour.
- Be honest and consistent throughout the assessment.
- Think like a responsible and professional future pilot.

6. Section C – Foundational Readiness

What is Foundational Readiness?

This section evaluates your academic knowledge and basic technical skills required for commercial pilot training. It is designed to assess whether you have a strong foundation in English, Physics, Mathematics, and basic computer skills, which are essential throughout your aviation journey.

1. English Language Proficiency

Assess your ability to understand and communicate effectively in English.

- Reading Comprehension
- Grammar
- Vocabulary
- Synonyms and word usage
- Understanding written information

2. Physics & Mathematics

Questions are based on Class 12-level concepts that are important for aviation training.

- Basic Physics concepts
- Motion, Force and Energy
- Algebra and Trigonometry
- Speed, Distance and Time
- Basic calculations and problem-solving

3. Basic Computer & Digital Skills

Assess your familiarity with using computers and digital tools in everyday situations.

- Computer fundamentals
- Internet and web browsing
- Email and online communication
- Basic MS Office knowledge
- Digital awareness and online safety

4. Decision-Making & Judgement

Evaluates how you analyse situations and make responsible decisions.

- Problem-solving
- Ethical decision-making
- Prioritising tasks
- Choosing the most appropriate response

Preparation Tips

- Revise your Class 12 Physics and Mathematics fundamentals.
- Improve your English by reading newspapers, articles, or books regularly.
- Refresh your knowledge of basic computer operations and digital tools.
- Focus on understanding concepts rather than memorising answers.

7. Part 2: Statement of Purpose (SOP)- Video

Statement of Purpose (SOP) Video: After Part 1, you will record timed responses to a set of on-screen prompts (about 10 minutes in total), around topics that centre on you, your aspirations, and your journey etc

Language: English only.

The evaluation focuses on the following seven competencies:

1. Spoken English Proficiency

Candidates should be able to communicate comfortably in English. The assessment evaluates basic fluency, pronunciation, sentence formation, and the ability to express ideas clearly. Perfect English is not expected; however, candidates should communicate confidently and understandably.

2. Communication Clarity

Candidates should present their thoughts in a clear, structured, and organised manner. Responses should be easy to understand, relevant to the question, and free from unnecessary repetition. The focus is on how effectively candidates communicate their ideas.

3. Confidence and Composure

The assessment evaluates how confidently candidates present themselves on camera. Candidates should remain calm, maintain a positive attitude, and demonstrate confidence while speaking, even if they feel nervous.

4. Clarity of Career Intent

Candidates should clearly explain why they want to become a commercial pilot and what motivates them to pursue a career in aviation. Evaluators look for genuine interest, long-term commitment, and an understanding of the profession.

5. Authentic Motivation

Candidates are encouraged to speak honestly about their aspirations and personal journey. Your genuine enthusiasm, sincerity, and realistic career goals will be evaluated rather than memorized or scripted responses.

6. Socio-economic Context and Resilience

Candidates may share their personal background, challenges they have overcome, and experiences that have shaped their aspirations. The assessment values resilience, determination, and the ability to persevere through difficulties.

8. Important Dates – Please Block Your Calendar

Date	Time	What it is	Links
Thursday, 13th August 2026	2:30 PM	Orientation Webinar – an overview of the assessment stage and the overall selection process. Attendance is strongly recommended.	Topic: Psychometric and Aptitude test orientation webinar- 1 Time: Aug 13, 2026 04:00 PM India Join Zoom Meeting https://us06web.zoom.us/join/87114017501 Meeting ID: 871 1401 7501 Passcode: 535579
Monday, 17th August 2026	5:00 PM	Platform Walkthrough Webinar – a live walkthrough of the assessment platform, including how to log in, navigate the test, and troubleshoot common issues.	Topic: Psychometric and Aptitude test orientation webinar- 2 Batch 1: Aug 17, 2026 04:00 PM India Join Zoom Meeting https://us06web.zoom.us/join/89057796042 Meeting ID: 890 5779 6042 Passcode: 381533
Wednesday, 19th August 2026	11:00 AM	Psychometric and Aptitude Assessment	The assessment link and schedule will be shared closer to the date of assessment

We encourage you to attend both webinars, as they will help you understand the process and use the platform confidently.

9. Technical Requirements during the assessment

The assessment is conducted fully online. Please make sure you have access to the following before your assessment window begins:

- A desktop or laptop computer with a working webcam and microphone. Mobile phones and tablets are not suitable for taking this assessment.
- A stable, high-speed internet connection (broadband or reliable Wi-Fi is recommended; avoid relying only on mobile hotspot if possible).
- An updated web browser – Google Chrome is recommended for the best experience.
- A quiet, well-lit, private room where you will not be disturbed for the full duration of the assessment.

- A valid government-issued photo ID, kept ready in case it is required for verification.
- Sufficient battery charge and access to a power source/backup, in case of a power interruption.
- Browser pop-ups, extensions, and notifications turned off, and other applications closed, to avoid interruptions during the test.

Recommended

- Taking the assessment alone, in a quiet private space, for its full duration.
- Keeping drinking water handy.
- Keeping your phone on silent mode.

10. Prohibited Activities

The assessment is monitored to ensure fairness to every candidate. Please review the following carefully before you begin.

Prohibited

- Using a mobile phone, smartwatch, calculator, textbook, notes, or any other device or material not explicitly permitted.
- Opening any other browser tab, window, application, or searching the internet for answers during the assessment.
- Receiving help from, or being present in the room with, any other person during the assessment, including for Part 1 (MCQ) and Part 2 (Video SOP).
- Impersonation, communicating/interacting with or allowing another individual to attempt any part of the assessment on your behalf.
- Recording, screenshotting, copying, photographing, or otherwise reproducing any assessment question, prompt, or platform screen.
- Leaving the camera frame, muting your webcam, or covering your camera during the assessment, where proctoring is active.

11. Consequences of Malpractice

Any form of malpractice, dishonesty, or violation of the permitted/prohibited activities listed above is taken seriously and may result in one or more of the following:

- Immediate termination of your assessment attempt.
- Disqualification from the current stage and the overall Giving Wings to Fly selection process.

- Invalidation of your assessment score, regardless of performance.
- Ineligibility to reapply to future Giving Wings to Fly cohorts.

The decision of the programme team on any suspected malpractice is final.

12. Confidentiality Obligations

The content of the assessment — including all questions, prompts, situational scenarios, and platform screens — is confidential and intended solely for your individual attempt. By taking the assessment, you agree to:

- Not share, discuss, or describe any assessment questions or prompts with any other person, including other candidates, before, during, or after your attempt.
- Not record, screenshot, photograph, or otherwise reproduce or distribute any part of the assessment content or your responses.
- Not post, upload, or share any assessment material on social media, messaging groups, forums, or any other platform.

13. A Few Tips Before You Begin

- Test your computer, webcam, microphone, and internet connection in advance ideally a day before your assessment window opens.
- Attend both webinars (7th and 13th August) so you know exactly what to expect and how to use the platform.
- Keep your ID and a pen/paper for rough work nearby, and ensure your surroundings are quiet before you start.
- If you face a technical issue during the assessment, try to reconnect promptly and contact the programme helpdesk immediately with details of the issue.
- Attempt the assessment without any interruption.

14. Need Help?

If you have any questions about the assessment stage, the webinars, or the technical requirements, please reach out to the programme helpdesk. We're here to support you through this process.
